GENUINE OEM PARTS

IF IT FAILS, WE'LL REPLACE IT. GUARANTEED!*

It's What's Inside That Makes the Difference!

The Diamond Power A200 Heavy Duty Alternator for Class 7 & 8 trucks is designed for the trucks of today and tomorrow. Long-life, reduced weight, worry-free reliability, and most of all – the highest efficiency rating of ANY existing HD Alternator for Maximum Fuel Savings are what is needed today. The DPA200 achieves all these with several newly designed major internal components. Take a look at how our components compare to a typical brushless alternator components that have been on the road for the last 40 years.

DIAMOND POWER

A200

HD ALTERNATOR

Groundbreaking Design – 5 New Patents!

- Designed to last as long as you own the truck (average +8 years)
- Exceeds 135 amps of output at idle
- Supports up to a 5-wire connection (including remote sense)
- Best in class efficiency puts money in your pocket
- Exceeds industry requirements for heat, vibration, and corrosion resistance
- One part number is a direct replacement for ALL Remy, Leece-Neville, Bosch and Denso PAD-mount alternators
- Diamond-Gard – Best warranty in the business.
“If it fails, we’ll replace it. Guaranteed!”
