

# FREE, ON-SITE TRAINING

Mitsubishi Electric Automotive America meets the growing demand from dealers and fleets for free, on-site training on heavy duty starters and alternators. While other suppliers stopped providing this type of training, Mitsubishi Electric Automotive America is committed to meeting the need.

# FREE, ON-SITE TRAINING PROGRAM

We asked our customers what they thought about our experts  
and **FREE, ON-SITE** training programs:

“Downtime should not be a concern if they follow Danny’s training procedure. The Mitsubishi product training is the answer to many of the starter issues my customers had as they used reman, local repaired rebuilds, and cheap underspec items. Mitsubishi delivers! Danny and Doug really did help me sell this great product.”

**Jim Powers,**  
Parts Department, Outside Sales,  
Sun State International Truck

“All I can say about this training is GREAT program, GREAT people to work with and very enjoyable! I can’t speak highly enough about the support that we have received when I decided to make the switch to this product.”

**Mark Fletcher,**  
Corporate Maintenance Manager,  
Cheeseman

“We wanted to understand what made Mitsubishi different from the competition, so we asked for the training. It covered what we needed and gave us the knowledge to sell this product.”

**Pat Pesta,**  
Director of Parts
